Which of the following resilience issues/tools/tactics should be the highest priority for the conference?

When poll is active, respond at **PolleEv.com/raritanbay**

Text **RARITANBAY** to **22333** once to join

What other resiliency issues have we missed?

When poll is active, respond at **PolleEv.com/raritanbay**

Text **RARITANBAY** to **22333** once to join

A word cloud of various terms related to environmental resiliency and community development. The words are in different sizes, colors, and orientations. The most prominent words are 'education' and 'community' in large blue font. Other words include 'change', 'habitat', 'water', 'development', 'adaptation', 'trees', 'storm', 'green', 'pilot', 'oyster', 'term', 'long', 'data', 'sector', 'buy', 'slr', 'reefs', 'loss', 'risk', 'future', 'private', 'limits', 'spending', 'buffer', 'effects', and 'feasibility'.

trees storm green change pilot
adaptation habitat term oyster
buy sector education long data
slr
reefs loss risk future private water limits spending
community feasibility
development buffer effects
